*Allowable Subject Matter*

1. Claims 1-9 are allowed.

Claim 1 is independent claim.

The following is an examiner's statement of reasons for allowance:

**As to claim 1**, the present invention from the application discloses a network printing system in which a printer having “ a memory data input/output unit for exchanging **the file in the printer intermediate language** with the memory server, wherein the printer prints the bitmap data of the file and **sends the file to server**”.

The closest prior art, which are attached on the Examiner's Remark, such as Kageyama et al. (US Patent No. 6,567,180 B1) discloses the printer to effect printing and storage of a document prepared by the computer in an arbitrary combination of formats; and Vidyanand (US Patent No. 6,836,342 B2) discloses the intermediate server stores the master data, combines the master and variable data, then sends the combined data to the printer.

However, Kageyama and/or Vidyanand, including an updated electronic text search, fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2624

***Examiner's Remark***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

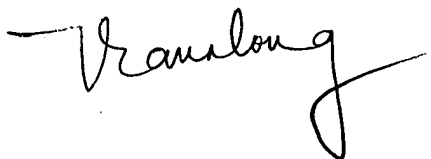

Vidyanand (US Patent No. 6,836,342 B2) discloses the intermediate server stores the master data, combines the master and variable data, and then sends the combined data to the printer.

Kageyama et al. (US Patent No. 6,567,180 B1) discloses steps of directing the printer to effect printing and storage of a document prepared by the computer in an arbitrary combination of formats; transmitting the document to the printer; effecting receipt by the printer of the document transmitted from the computer; and effecting printing and storage of the document according to the instruction from the computer.
